

***Where do I start to get something printed or a logo item? Here are our top recommendations:***

- **Vista Print** is the most economical and works fine if you have someone who has a bit of graphic design talent. They are best used for business cards, postcards (which can be that “tool” Stan talked about to give your congregation to help them invite). Their website is very user-friendly. To save the most money, have order several weeks out. You can usually get your order in under a week, but it will cost you more. [www.vistaprint.com](http://www.vistaprint.com)
- **Liberty Press** is full service. They can do design for you and also offer other logo items (bags, Frisbees, portfolios, shirts, etc). They are a Christian company and have a lot of experience working with church marketing, so their expertise is very valuable. They also do our giving envelopes. If you decide to check into them, please tell Myron that we sent you. His info is: [www.libertypressonline.com](http://www.libertypressonline.com).

- **DiscountMugs.com** usually has the best price for pens. They also offer a lot of other custom logo items. Their website is also very easy to use. [www.discountmugs.com](http://www.discountmugs.com).
